THE ENEMY'S MAIN BODY

Is Being Sought For By Combined American Forces

A DEADLY HUMIDITY

Is Causing Much Sickness Among Soldiers From Heat Prostration And Fever.

MANILA, June 5.—Hall's campaign against the force under Gen. Del Silar north of Laguna de Bay continues vigorously today. The American lines across Morong peninsula, extending six miles from Morong on the east to Antipolo and Taytay on the west began gradually closing in this morning and the advance down the peninsula was begun.

Hall hopes to meet the big main body of the enemy here. Hall yesterday occupied Antipolo and Col. Whaley's force came through Cainta and united with the combined force and then advanced at Morong.

During the night Gen. Lawton had brought troops to Morong by water and these advanced and connected with Hall's troops, forming a chain across the peninsula.

A few Filipinos slipped through the American lines last night and escaped northward.

The heat is terrific and the frequent showers cause deadly humidity. The hospital boats returning this morning brought 200 soldiers who are suffering from heat prostration.

The country between Manila and the field operations offers insurmountable obstacles to the transportation of supplies and wagon communication from Manila through San Mateo valley has been abandoned.

The country is so rough about Antipolo that even the signal service wagons had to be abandoned. Lieut. Hawthorne of the First artillery was unable to proceed and was compelled to burn his wagons and ammunition to prevent their falling into the hands of the enemy.

Five Chinamen employed by the signal service deserted and there were not enough men to carry the wire.

Sergeant Wadack and a repairing party were cut off by insurgents, but rescued by Lieut. Gibbs with a handful of men, who drove the enemy back.

MANILA, June 5.—Our troops captured Morong, a rebel stronghold on the peninsula of that name, this morning without incident, the rebels having retired from the place. The Americans camped and rested during the hottest part of the day. They will continue their advance this evening.

LEADING DOCTORS

Attend the Columbus Convention of the American Medical Association.

COLUMBUS, O., June 5.—Columbus is thronged today with prominent physicians from all parts of this country and Canada, come to attend the annual session of the American Medical association and the meetings of the several auxiliary bodies.

The American Medical Editor's association met this morning at the Y. M. C. A. auditorium with a large attendance of members. The principal address was delivered by Dr. J. D. Emmet, editor of the American Journal of Gynecology and Obstetrics, and resolutions of regret over the death of the late Dr. John D. Hamilton of Chicago, editor of the Journal of the American Medical Association were passed.

The present convention of the American Medical association promises to be of unusual interest as it will be in the nature of a celebration of the semi-centennial of the association. The association was founded in 1849 by Dr. N. S. Davis of Chicago, and has grown until it embraces all of the regular medical associations and societies in the United States and Canada, with a total membership of over 6,000.

The remainder of the week will be devoted to sessions of the head camp and competitive drills.

RAIN OR NO RAIN

The Rebellion in the Philippines Must be Put Down.

WASHINGTON, June 5.—The real reason for the midnight conference between the president, Assistant Secretary Melkielejohn and Gen. Corbin is stated on good authority to have been a dispatch which the officials desired to lay before the executive containing a plan of campaign submitted by Gen. Otis.

It is said that Otis advocates aggressive campaigning during the rainy season and it is announced semi-officially that the president is in favor of instructing our leader on the islands to proceed.

As a result the war will be prosecuted more vigorously than ever, rain or no rain.

DENVER WANTS IT

She Will Work Hard For the Convention.

CHICAGO, June 5.—Denver is reaching out with a vigorous hand for the convention of 1900. The campaign for the Colorado metropolis is being pushed by Senator Wolcott.

Chicago will make a strong bid for the honor, as will Kansas City and San Francisco. The latter city, however, will have almost the united opposition of the east and south to meet, owing to the great distance and the consequent time and telegraph toll disadvantages.

BIG RIOT IN PARIS

The President Of France Was Grossly Insulted By Royalists

ANNA GOULD'S HUSBAND

Was Arrested Among Other Ring Leaders Of the Disgraceful Demonstration.

PARIS, June 5.—President Loubet, attended by Madame Loubet, attended the races yesterday and was grossly insulted by a storm of hoots and yells directed by the league of patriots. One royalist approached the president

and struck his hat with a cane.

Guards surrounded President Loubet. The excitement was intense. Several inspectors of police were wounded. The president sustained a quiet and dignified attitude during the tumult.

The ring leaders, principally royalists, were arrested, among them Count de Castellane, husband of Anna Gould. The purpose of the riots was to force Loubet to resign.

PARIS, June 5.—The city is excited today but there are no signs of violence following the royalist personal attack on Loubet yesterday.

The cabinet met today to consider what measures shall be taken against Count de Castellane and the others. It is probable that they will be neither tried nor banished. Their prosecution would make martyrs of them and would enlist a powerful royalist interest which might prove dangerous.

The active conspirators will be severely dealt with, however.

AWFUL TRAGEDY

ALLIANCE, Ohio, June 5.—This morning Isaac Reck, a retired merchant, and his daughter, Mrs. Mary J. Cope, waited for a Fort Wayne switch engine to pass them and then stepped in front of a freight engine.

LIBEL SUIT THREATENED

Ex-Governor Thornton, It Is Said, Will Sue the San Francisco Examiner

LLEWELLYN TESTIFIES

The Direct Examination Brought Out Little Except Corroborative Evidence.

HERALD Bureau, HILLSBORO, N. M., June 5; special to the HERALD.—Deputy Sheriff Ben Williams was called this morning to testify relative to indictments found at El Paso against west Texas parties charging cattle

theft. W. H. H. Llewellyn, considered an important witness by the prosecution, was on the stand until noon. Nothing new was brought out in the direct examination, but corroborative evidence regarding the trailing of Fountain's vehicle and of the tracks of the horsemen, which were obliterated by a herd of cattle passing from Dog Canyon along the road towards Wildy's Wells.

Witness described the child's tracks around the campfire, saying they were made by one shoe belonging to the right foot. The cross examination of Llewellyn takes place this afternoon and promises to be of a sensational nature. In regard to Fountain's domestic relations, witness said he was well acquainted with Fountain's family and had visited the home many times. He never knew a more affectionate family.

(Objected by defense on the ground that they had no intention of reflecting on Fountain's domestic affairs. Prosecution contended that Fountain had disappeared and they desired to show that his domestic relations were such as not to warrant him to desert his family. Objection overruled.)

It is reported here that ex-Governor Thornton will sue the San Francisco Examiner for libel on account of the Hillsboro article published therein on May 31.

The article referred to was sent out from Hillsboro by a special correspondent, and the Examiner put a large head on the article reading, "Perjury in the Fountain case.—Ex-Gov. Thornton's evidence tainted with suspicion.—Blood, soil and hair found.—Indications that they may have been manufactured."

Justice Ellis' Court. The state of Texas vs. Alberto R. Lasky, charged with assault and battery.

The defendant was found guilty by jury and was fined five dollars and costs.

Through her lawyers the defendant filed a motion for a new trial, but later appeared before Justice Ellis and settled the fine and costs in the case.

Too Many Dogs

"It is time for the dog-catcher to get in his work again," remarked a citizen "and rid the city of the worthless curs running around making a nuisance of themselves. A person cannot walk or ride through the residence portion of the city without having a crowd of these pests snapping and growling at his heels or running and barking in front of his team. The work should begin earlier this year and rid the city of them before the dog days come on."

Sent to the Reformatory.

Petronilo Morales, the Mexican youth who was arrested for burglary Thursday night in entering the house of J. Calisher's and carrying off a number of hats, was arraigned in the district court late Saturday afternoon. He pleaded guilty to the charge preferred, and was sentenced to serve five years in the reform school, being too young to send to the state penitentiary.

The Bandits Were In a Trap And Escape Was Impossible.

NO LOSS OF LIFE

The Quick Action Of the Posse Will Go A Long Way Toward Stopping Such Outrages.

OMAHA, June 5.—Reports received at the Union Pacific headquarters from Wyoming today indicate that the man hunt is narrowing down to a small space near Hole-in-the-Wall. The bandits who held up the overland Friday are practically surrounded by three hundred armed men and their escape is impossible.

CHEYENNE, Wyo., June 5.—A courier has just reached Casper with the news of a battle between nine of the Union Pacific posse and the outlaws who dynamited the express train at Wilcox.

SUNDAY OBSERVANCE

Movement For Better Observance Of Day In Europe Making Progress—Closing Of Business Houses.

"The question of Sunday observance," remarked a visitor in our city yesterday, "is by no means a simple one. There are elements in the problem which make it difficult of solution. It is, perhaps more difficult in this country because the population is so heterogeneous. In the old New England days Puritan ideals could be realized because the people were all of one class. But the population as you find in these western states, is composed of representatives of many nationalities and of various phases of faith. Simple justice seems to make it imperative that the preferences of differing people should be recognized. Here in El Paso is a population composed of nearly every nationality and while as much liberty as possible is granted to them, yet whether the Lord's day is observed is a question."

"On its secular side, as a rest day, Sunday holds its ground. Wage-earners claim their right to its enjoyment."

"The changes which have been made in laws have all been along the lines of greater effectiveness. The chief perils are found in the exclusive observance of the day as one of rest and pleasure."

"It will perhaps surprise many to know that the movement in favor of a better observance of the day is making distinct progress on the continent of Europe. In Paris even, the success is encouraging, especially in the closing of business houses, and I believe that such a movement should be started in El Paso. Sunday should be observed both as a day of rest and pleasure."

BANDITS CAPTURED

The Man and Woman Who Held Up a Stage In Arizona.

The man and woman who held up the stage near Benson last week were captured about twenty-five miles from the Mexican line yesterday and were taken back to Florence, the county seat of Canal county. About three hundred dollars in money and one gold watch were recovered.

Nine persons were received into the membership of the First Baptist church of El Paso during the month of May: Mrs. R. L. Walker, by letter, Thomasville, Tenn.; Mrs. A. A. Stewart, by letter and statement, Cisco, Texas; Mr. and Mrs. C. Simmonson, Mr. and Mrs. John Kelly, Miss Eleanor Kerr, Mrs. Comfort, and Wilson Baker, all by profession of faith and baptism. The revival spirit is spreading among our people, even without protracted services. Others are ready to come in.
